NATURAL REFRIGERANT GAS R290

The **HCT125** Huxford Counter Top commercial display refrigerator takes up minimal bench space and is ideal for impulse buys especially at point of sale locations. The internal operating temperature is between 0-4°C so it will store and display dairy, meat, seafood, processed foods (all potentially hazardous foods) as well as perishable foods and beverages. Airflow technology delivers cold air throughout the fridge, also means quick pull-down of warm/hot product. Utilises R290 a natural low environmental impact refrigerant gas. Designed with compact components for maximum storage capacity. All four sides are glass for maximum product visibility and the bright internal LED lights in each corner illuminate the contents perfect for attracting customer attention. Complying with Australian (and NZ) Government MEPS (Minimum Energy Performance Standards) this unit is rated 3M1. Fitted with a Carel digital controller that also controls the internal light and digitally displays the temperature. Designed for everyday use. Suitable for up to 25°C ambient temperature.

HCT125 Advantages

Warranty*

- 1 Year Standard Warranty (Parts & Labour)

Compliance

- MEPS 3M1

Airflow Technology

- Airflow technology means faster cooling and temperature pull-down of product

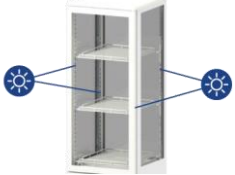

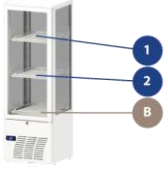

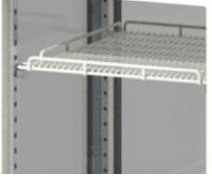

Low Environmental Impact Gas

- Uses R290 natural refrigerant gas, low environmental impact, non-toxic, zero ODP, very low GWP, high performance/efficiency

HUXFORD HCT125 LARGE COUNTER TOP COMMERCIAL DISPLAY FRIDGE
