¹Performed under test conditions

MEPS RATED

3M1

The **HOD900** Huxford Open Deck is a commercial refrigerated "impulse buy" cold display solution, used for converting browsers into buyers at point of sale locations. The internal operating temperature is between 0-4°C so it will store and display dairy, meat, seafood, processed foods (all potentially hazardous foods) as well as perishable foods and beverages. Unique airflow technology and a powerful air curtain keeps the contents consistently chilled to temperature. The top mounted bright internal LED lights are perfect for attracting customer attention to product. With strong gravity feed powder coated steel shelves as standard. Complying with Australian (and NZ) Government MEPS (Minimum Energy Performance Standards) this unit is rated 3M1. Fitted with a Carel digital controller that also controls the internal light and digitally displays the temperature. These units are designed with a powder coated steel outer which is durable and damage resistant, for everyday heavy use. Suitable for up to 24°C ambient temperature.

HOD900 Advantages

Warranty*

- 1 Year Standard Warranty (Parts & Labour)

Compliance

- MEPS 3M1

Airflow Technology

- Airflow technology means faster cooling and temperature pull-down of product

Air Curtain

- Powerful air curtain keeps cool air inside

Night Blind

- Retractable night blind to save power

HUXFORD HOD900 OPEN DECK COMMERCIAL DISPLAY FRIDGE
